

7-12

Office Memorandum • UNITED STATES GOVERNMENT

TO : Chief, Shore Units Division

FROM : Assistant Chief, Public Information Division

SUBJECT: Photographs on KWADACK LTS.

DATE: 23 December, 1948
 File: CPI-055

1. Inclosed pictures are only ones that have been identified (by comparison with picture inclosed with report) as being from the KWADACK LTS. We have a number of pictures showing personnel operating various equipment but there is no way to identify the stations at which pictures were taken.

2. Public Information Division has prepared a Public Information Plan to be made a part of the KUKUI operation orders which will cover photographically each station visited by the KUKUI during the 1949 logistics cruise. We expect a complete picture coverage of each station as a result of the Public Information Plan.
