LCRAN-C

A team from U. S. Coast Guard Headquarters composed of a representative of the Chief of Staff, the Acting Chief of Electronics and a Treasury - Coast Guard frequency allocation and management expert departed for Paris, France on Monday 22 January 1962 to meet with French PTT authorities in an attempt to resolve radio interference problems between the Hstartit, Spain LCRAN-C station and French radio services in the band 90 - 110 kc/s. Tests being conducted at this time and monitoring by the Federal Republic of Germany will provide data for this and subsequent meetings to be held to minimize LCRAN-C interference and to find replacement frequencies for other radio services affected. Conversion of Light Stations to Automatic Unmanned Operation

The Commandant has authorized the conversion of the following light stations to automatic operation:

Old Plantation Flats - Chesapeake Bay

Ashland Breakwater - Lake Superior

Browns Point - Puget Sound

Line Kiln - Puget Sound

These conversions will cost approximately \$51,535 and will effect annual savings in excess of \$30,000 per year. (UNCLASSIFIED)
