OLD Reunion Hall Table for: LORSTA Johnston Island

On 09/14/07 **QC** said:

My Dad, Quentin Campbell (Red Bluff, CA), was there from 64-65. Employed by Holmes & Narver; poured alot of concrete and was there during the build up of JI. I remember him telling me how good the food was, and all the beer they drank. I only remember two names: Charles S. Arakaki (Honolulu?) and Gary Sawyer (?) (Redding, CA). Just keeping the names & memories alive as a tribute to the old man.

Sorry, I did mention my thyriod problem. But I still say something is wrong.

On 02/20/07 Fernando Leos said:

My bad, my first name is 'Fernando' and yes it does make me wonder as how many for members stationed on J.I. have had medical problems. I did say anything about the 'thyroid' but I had all my thyroid removed in 1985 via nuclear medical. I have to take a synthyriod pill the rest of my life. Thanks

On 02/12/07 **sean moley** said:

I had part of my throid removed 3 years ago. I was told it was not normal. in particular to males. makes you wonder huh Fernand?

On 02/12/07 Fernand Leos said:

I was stationed on J.I. from Nov 71 to Nov 72 with the USAF. I did not know about the junk (AO, plutonium, etc) that was on J.I. I have recently gotten Type 2 diabetes and in 1985 had my thryoid removed. Am looking for picture of 'leakers' and also anybody there between 71 - 72. Thanks

Hey Guys, haven't seen any of the guys I knew from there here, I was on Johnston 75-76. I've been doing a lot of reading, studying about the old island recently. It began with a documentary on pbs about the U.S. and bio weapons testing. I have found several sites about Johnston and message boards there and I think you guys should be aware that (as we all know) the place was covered in poison. Yes we knew about the plutonium, and the A.O., but seems they did bio testing there as well. If you read you will find that a lot of people out there are getting sick. I suggest you goggle 'lorsta Johnston Agent Orange. If you have lumps in your lymph nodes, they might have got you.

I miss putting a can of beer in the cannon and hearing it hit the shack during colors. And of course the Army dudes getting pissed

On 10/27/06 **Sean Moley** said:

It took a lot of searching to find this site. I was stationed there as a 'boot' from 89-90. I really miss the place and the people. Those damn geckos tripping the transmitter! The bull horn over my bunk was a nice touch. Burn your own steak. Lose your hat at the tiki and the endless supply of women!! Those were the days

On 10/06/06 Greg Wells said:

I was there June 1970 to June 1971 as cook CS3 with Bob Maddock as my CS1. Bob's favorite saying was 'I'd go over the hill if there was a hill to go over'

On 09/09/06 Pete ONeal said:

Stationed on JI as XPO with Gary Schenck and Roger Shell during 84 & 85. Spent most of the time with the birds -- anyone still around from those days?

On 08/24/06 LCDR Mark Hudson said:

If anyone out there has, or know of someone who has old tech manuals and schematics for the AN/FPN-30 Timer, AN/FPN-T325 Transmitter, and the AN/FPN-1700 Amplifier, please let me know. It seems as this piece of history has been lost forever if we don't find a copy of it and get it into the right hands for preservation.

I was at Sand Island, JA, from very late November or early December, 1962 to November 19, 1963, as ET3 and ET2, took over some of Jay Goff's communications duties when we lost both him and his RM2 billet. I printed some aerial shots of Sand Island while there and still have one---very nice---scanned at 300 DPI, with appropriate annotations. Picture dates to 1962 bomb test evacuations, I believe. Free to good homes as an e-mail attachment (700KB-4 minutes download). I see Goff's name here, and Charlie Francis' name. Don't know why after 42 years, but the memories of that place are still as bright as the Pacific Sun: RM Jay Goff, ET's Charlie Francis, Terry Winner, Charlie Branch (thanks for the bag trick), Charlie Johnson, Linwood C. Stowe. Frank (Pancho) Dougherty, Waltenbaugh, SN's Joseph Jesus Diaz, Rob Roy Cuthbert, Ron McConahey, Hildebrand, Cook Charlie Duncan, EN Ron Hinton, CO's Paul Welling, William H. Hayes, Jr.---the names still register, and the faces appear, as well. After Lorsta Johnston, I put in 18 months at Radio New York on Fire Island (where they well-remembered Frank Dougherty), then bailed out in the summer of '65.

Looking for those 'Wild and Crazy Guys' that were stationed there from May83 - May84. I was very pissed that the detailer sent me there, however it was the best time I had in the guard. I tried getting stationed back there, but no luck. Miss those times seeing them army boys PT'ing in the morning and us driving in front of them drinking beer. Has anyone heard from Surfer Dude 'Dave Mackey' or Hugh Bartlett (army SGT) that ran the TV/radio station? CWO4 Dale Moore will be retiring this year in ESU Miami,FI.

Spend a year on 'the rock' from 1979-1980. Sad to hear the island is closing up for good as of Jan 04. Sure would love to get in one more dive there!

On 09/26/02 Stan Albrechtsen said:

FYI... KH3 could become rarer still: The Daily DX reports that future DXpeditions to Johnston Island, KH3, may be much more difficult. The US Environmental Protection Agency (EPA) has approved a US Army plan to permanently close a chemical weapons disposal facility on Johnston. Four million pounds of weaponry have been disposed there since the facility opened in 1990, and the task of destroying the stockpile was completed two years ago. With the closure of the Army facility, the atoll will continue as a wildlife refuge, and administration will be turned over to the US Fish and Wildlife Service. Johnston became a wildlife refugee in 1926. The unincorporated US territory is 825 miles southwest of Hawaii. The closure will mean less personnel present and fewer flights to and from Johnston Island.

First duty station out of boot camp. Since I was the only non-ET and they had lost the SK2 - I got the job. Didn't know squat about ERPAL! Wound-up asking a lot of questions of the SK2 at Upolu Pt LORSTA - ended up getting married to her. For those of you who followed the soap opera we divorced about a year later (oh well, make your mistakes young). Would love to hear from some of the old gang - Deke, Jimmy, Ed Mazzio, Tony, Bill Gardner, CAPT Video, CWO Ray/Stillman. What ever happened to Sigmund? Hopefully the locals down at the Waikiki Club didn't get ahold of him! Would love to go back to JI for a dive or two - and maybe for a 60-cent Tanqueray and tonic at the club! Hard to believe that was almost 20 years ago. I'm a LCDR -select now, spent most of my time in OPCENS and at sea. Just came off command afloat in Panama City, FL. Drop a line and tell me how many millions of dollars you're all making in your civilian tech jobs!

I was an ET3 on Sand Island from July 68 through July 69. Looking back, after 30 years, it was just a blip on the radar screen. What makes it so memorable was having the opportunity to serve with such a great bunch of 'coasties' and the Hawaiians from the Riggers Loft.

I was the HM2 on Johnston from October 61 thru Oct 62. Participated in all sorts of fun and games aboard the Iwo Jima during our evacs during JTF8. Remember Bo and Jeff, our celibate hounds who dove for rocks and ate mice on the mess deck? Remember the night Stricland was running the movies and the Chaplain was there, and the film was all over the projection room? Remember the Roadrunner cartoons that never made it back to Pearl Hrbr? Hey guys, weren't those the days? And remember the Christmas party in '61 when the CO and XO were at Major Cady's place and all those jugs came out from hiding? Drop us a line.

I was ET3 on Johnston Island 04/62 to 03/63 during last atmospheric testing. Fascinating duty. All that secrecy we could

not write home about. When I got off the island, it was all in Life and Time magazine! CO was Paul Welling. I remember the Hawaiian construction crews that would come over on the weekends and fish, then cook a luau. We provide the beer, some pans and oil, they provide everything else. I remember CWO2 KJ6BV, and got my novice license: KN1WIT/KJ6. Open canteen - never had a problem. I have a good story about the '50 miles in 24 hours' fitness program that was all the rage (Sorry Mr. Welling). I got to go up the tower twice. Read 107 books. I would be glad to communicate.

The year I spent on Johnston, 73/74, was one of the best.Last night I was sitting at home in Portland, Oregon, and the phone rang. John Larned, as in LTjg, was passing through town. Somehow he remembered that I lived in Portland and looked me up. I had breakfast with him this morning and we tripped down memory lane looking through a bunch of my pictures and the crummy black and white picture in the cardboard frame, the one that so many cool people signed and the one that brings back a lot of good memories.If you pass this way please drop me a line and say hello.

Made many trips to Johnston Island while on district (eee) staff (1971-1972 and 1978-1984). Also, was on French Frigate Shoals 1970-1971 when we were the dual Loran-A master station and Loran-C monitor Station. Had a friend who was part of the old station on the main island (1959-1960) when the construction of the Loran-C station was going on at Sand Island. Lots of good times there.
