From: LTJG N. P. Weinert, USCG.  
To: The Commandant (O).

Forwarded. Personnel situation considered unsatisfactory in that electronic section is short three technicians; senior electronic technician (ET3) is due for rotation in approximately one month; two remaining ET3's are relatively inexperienced.

Forwarded. The personnel situation mentioned in indorsement-one is an undersirable one. However, all stations in the WPS are operating under similar circumstances. The overall complement of the Electronic Technicians for the WPS is 60. At this time the on board count is (31) rated men and (9) SN strikers.

Forwarded. For the past two years an equitable distribution of ratings on board in this District have permitted an average of only 13 to 14 per Loran chain. At present each chain rates 19. The shortage is undesirable but until the overall ET picture for the entire Coast Guard improves, it will have to be lived with. Equitable distribution of ET ratings available will continue as District policy.
